Digital Photography
7 Dwarfs Project

What are some characteristics of the following words? (Facial expressions, things that cause them, ways you could illustrate these examples through photography, etc.)

1. Bashful

2. Dopey

3. Grumpy

4. Doc

5. Sleepy

6. Sneezy

7. Happy

You need to take a picture for each of the words listed above. Make sure you capture a strong representation of each of the dwarfs. You will then need to Photoshop a gnome hat (that you can find on google) onto them as well. Try to make it look as realistic as possible.

Adding the hat:
Select a photo of a hat in Photoshop.
Drag it to the Photoshop icon to open it.
Choose a "selection" tool...quick selection works just fine.
Select the hat.
Copy and paste it into the photo of the dwarf you are working on.
You may need to resize it so select your cursor tool at the top of your tool bar, then go up to edit, then transform, then scale. Hold shift and resize the hat to the size that you need.
Save your dwarf as the name you are characterizing it as.

Then place all of the final photos into InDesign and save the document as 7 Dwarfs
