Color Wheel Assignment

- For this assignment you will save each photo separately as a jpeg for the following colors: yellow, orange, red, violet, blue, green, white, and black.
- There will be **one photo per color on the color wheel...so 6, but don't forget to take a white photo and black photo...so 8 IN TOTAL!!!!**
- Please arrange your photos, in an InDesign document, in the order of the color wheel! White and black can go in the middle, or anywhere that is pleasing to the eye.
- Each student will be graded based on the quality of each photograph as well as capturing the components when discussing the elements of art and principles of design.
- Also zoom in to fill the photo with the chosen color!**
- It must not be a solid patch of color, but must have depth to the composition.**
- Creativity will also be a factor that is judged...**no blurry photos please!**
- If the images are not saved in the appropriate place students' work will not be graded, as it is part of the above stated information.
- In the end, your folder titled *Color Wheel* should have your 8 photos, your InDesign document, and your PDF version of the InDesign document.
