

# Digital Photography

Miss Brittany Mikeska

## Mechanical Assignment/ What is it?

- This assignment will be put into a PowerPoint presentation; but you do not have to resize each image. Also, save each image as a JPEG. Please save this assignment to your jump drive as **Mechanical**.

Mechanical

- There will be **5 photographs (technically 10-the 5 zoomed out images also...)**
- Save each of the 10 photos in your Mechanical folder as well!!!**
- Students will be asked to take a zoomed in view of a mechanical object. (i.e. machinery, vehicles, man made, etc.) The idea is to make it as unrecognizable as possible. Then the student is to zoom out, while still capturing a well-composed photography, to allow us to see what the object is.
- Each student will be graded based on the quality of each photograph as well as capturing the components when discussing the elements of art and principles of design.
- Creativity will also be a factor that is judged...**no blurry photos please!**
- If the images are not saved in the appropriate place students' work will not be graded, as it is part of the above stated information.
